### **Three new members nominated to Koolbridge Solar Board of Directors.**

James Millis, Bill Pratt and Bill Griffin have been nominated by the Koolbridge Solar Board of Directors, for Shareholder approval, as new members of the Board.

James H Millis, Jr.

For the last 10 years “Jim” has been the CEO of Millbrook 1, LLC working with Diversified Trust Company to grow and manage assets. In addition he is CEO of James Millis Jr. Foundation managing, along with his wife and three children, the philanthropic direction of this Foundation.

He spent most of his life in the areas of product development and marketing.

As Sr. Vice President of Marketing for the Adams Millis Corporation, the world's largest hosiery company, he provided strategic long range planning for domestic and global growth.

Following his career at Adams Millis he was the CEO of Micromarketing OMO and worked as a consultant in new product launches, marketing research, product testing with most of the focus being in the consumer market. Jim is a Member, Board of Trustees at High Point University. He graduated in 1976 ----

William "Bill" J. Pratt,

Mr. Pratt is the former Founder, Chairman, CEO and Chief Technology Officer of RF Micro Devices, Inc. Mr. Pratt founded RF Micro Devices in Greensboro, NC in 1991 and retired in 2008. The Company designs and manufactures high-performance radio frequency systems and solutions for applications that drive wireless and broad band communications. With 3,500 employees, RF Micro Devices completed its merger in January 2015 with TriQuint Semiconductors to form Qorvo, a Company with a present Market Cap of approximately \$10 Billion. Prior to starting RF Micro, Bill was the General Manager of Analog Devices from 1971 to 1991. He is a graduate of Villanova with a BS in Electrical Engineering. Bill is also on the Board of Directors of Guerilla-RF.

Bill Griffin  
*President and CEO, Koolbridge Solar*

Leads all strategic alliance initiatives and develops other sales channels, works with team to execute the Business Plan. Background includes many start-up and turnaround companies including CompUSA, ElectroSource, ElectroStorm, and AMX.

Bill Griffin is an exceptionally motivated business executive with 47 years of successful experience in business equipment, computer, telecommunications, energy, electronic control devices, and other service industries, delivering solutions to corporate, government, and education clients directly or through independent channel partners. He has demonstrated bottom line success for retail, value added reseller and manufacturing companies including startup, rapid growth and mature organizations. Bill was Regional Vice President of AMX Corporation for 11-years, held roles as CEO, President and Executive Vice President at ElectroSource over a 7-year period, and was Vice President, Government Division and Officer of the Company for CompUSA, a multi-billion computer retailer, from 1989 to 1996. Bill works with the Executive Management of Koolbridge Solar in business development, technical support, financial analysis, business operations, sales and marketing, sales management and operations, team building, and executive briefings. Bill is a graduate of Niagara University with a BS in Economics.

*“I am delighted to be selected as a member of the Koolbridge Solar Board of Directors. During the past three and a half years I have worked very closely with the Board of Directors, and other Executives at Koolbridge Solar, initially as a consultant, then in Executive Management positions. I am looking forward to working more closely with the present Board, and new members Bill Pratt and Jim Millis. Both these gentlemen bring to Koolbridge Solar significant outside-in perspectives on start-up companies having lead their own companies down paths of success due, in large measure, to technological leadership and fiscal prowess. Their guidance on the Board will further contribute towards Koolbridge Solar quickly becoming a technology leader in the renewable energy field.*

*Personally, I see 2018 as the beginning of a new day for Koolbridge Solar. We are at the threshold of introducing to the home and commercial market a first of its kind energy management product in the SMART LOAD CENTER™, along with many other innovative patented inventions to quickly follow”.*

Bill Griffin, President/CEO/Board Member

### **About Koolbridge Solar**

Koolbridge Solar is the “**Gateway to the Intelligent Home™**”. It is the first company to design, develop and sell the next generation of innovative intelligence driven, solar-ready, electrical power products that automatically select the most economical use of utility, solar, battery, wind or generator power for homes and businesses on a circuit by circuit basis.

Koolbridge Solar has patented and patent-pending products under development that effectively capture, manage and distribute electrical energy throughout homes or businesses. Moreover, with Koolbridge’s first product, the SMART LOAD CENTER™, there is no power interruption whatsoever if the grid goes down while using solar power.
